Thanks Amber. Karissa, here is the clean position paper.

Monique, I'm just finishing the DP notes on comments that I'll send to you and the rest of the delegation.

No. I thought you did a great job of clarifying a number of issues and incorporating Todd's notes. I do wonder how much of this you will be able to provide though. But let's see how things go.

Ok, I'll list the comments and responses in some notes for you, including where we might want to press further or just make the comment for everyone's attention.

Amber, did you have any comments on the position paper?

If there are any that were not addressed by the drafting group and you think we should raise again during a contact group, it would be helpful to know that (in case you're not available for the contact group). Otherwise, I don't want to make more work for you at this point.

Yes they were. Their responses are described in CRP3. If it's helpful I can note the responses in the position paper.

Thanks Laura. I know we have sent in some comments on dechlorane plus. Just want to know if any of the detailed comments listed in the position paper were included in those submissions? If so, which ones and were they addressed?

Subject: Revised position paper for Dechlorane Plus
Importance: High

Hi,

I have incorporated Todd's points into the draft paper for Dechlorane Plus and made some further revisions. I also went through and changed all the paragraph numbers, which were changed with the new version (tried to make sure the specific examples were in order, not repetitive, and still descriptive of the information in the risk profile).

Laura
